HOPE FOR RELIEF:
United Efforts for Flood and Landslide Victims

All clubs at Prime College collaborated on the CSR project "Hope for Relief,'' initiated by Prime Flair Club aimed at helping those affected by floods and landslides in Nepal. The initiative focused on raising funds through an online campaign.

Partnering with Hami Nepal and CSITAN, the project ensured its impact. Hami Nepal managed the funds and directed aid to victims, while CSITAN handled the social media campaign, boosting visibility and encouraging contributions.

"Hope for Relief" demonstrated the power of collective action, showing that unity can make a meaningful difference in times of crisis.

नेपाल संवत् ११४५
Bhintuna: The Nepal Sambat New Year
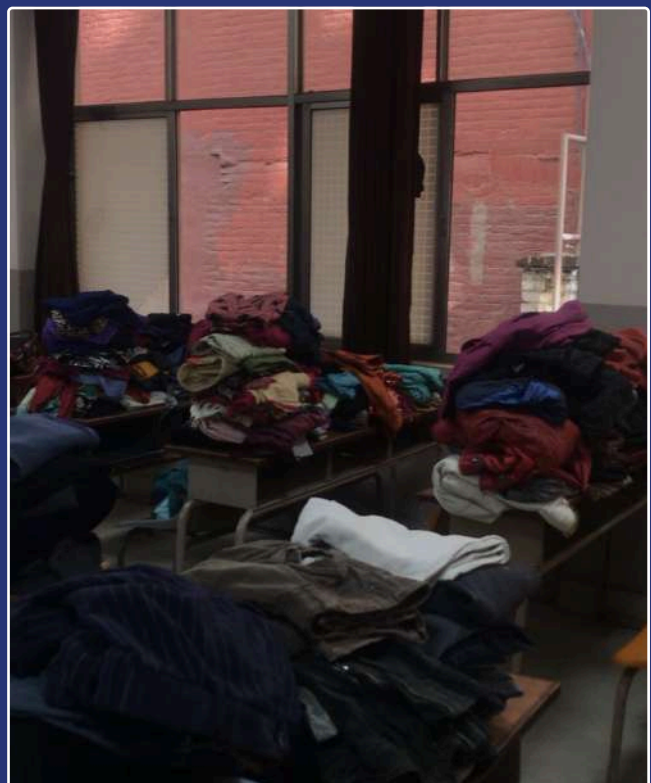

Bhintuna is a unique and culturally significant celebration for the Newar community of Nepal. Marking the start of the Newar lunar calendar, this festival is deeply rooted in the traditions, identity, and history of the Newar people. It is a tribute to Shankhadhar Sakhwa, who introduced Nepal Sambat as a symbol of independence and unity after liberating the people from debt. The streets come alive with parades featuring traditional Newari music, historical reenactments, masked dances, and participants dressed in traditional attire like Daura Suruwal and Haku Patasi. People visit temples to offer prayers, light oil lamps, and seek blessings for prosperity in the coming year.

We celebrated Bhintuna 1145 with immense excitement and pride under the organization of the Prime Cultural Club. The rally, starting from Basantapur, was a vibrant and joyous event, representing the college's enthusiasm for cultural traditions. Students from both senior faculties and the +2 program joined forces to participate.

Traditional Newari instruments, including two pairs of dhime drums and bhusyas, added energy and rhythm to the procession. The rally was a moment of unity, with participants dancing, hooting, and chanting slogans like "Nepal Sambat Rashtra Sambat" and "Bhintuna Yah Bhintuna Nhu Daya Bhintuna" to mark the New Year. It was a proud and festive celebration, bringing together Newari people from different castes and showcasing the cultural richness of the Newar community while fostering togetherness among students.

PRIME INTER-CLUB FUTSAL TOURNAMENT:
STRENGTHENING BONDS THROUGH SPORTS *23rd Kartik, 2081*

The Prime Inter-Club Futsal Tournament, aimed at strengthening the bond among student clubs at Prime College, featured both boys' and girls' categories. The boys' team played in a round–robin group stage followed by knockout rounds, while the girls' teams competed in a single league. Group stage matches lasted 7 minutes per half for boys and 5 minutes for girls, with finals extended to 15 and 10 minutes per half, respectively.

Held at River Field Futsal, the boys' champions were Prime Sports Club, with Team Faculty as runners up. In the girls' category, Prime EMC X Prime SIC won, followed by Prime Flair Club and Prime IT Club. Pratik Rimal and Sasmita Rai were named Best Players in their respective categories.

The event was a success, thanks to the efforts of volunteers and the teams of Prime Sports Club and Prime EMC. Congratulations to all the participants!

STUDENT
Spotlight

Each stage of life brings its own challenges, but my journey toward becoming a better version of myself began when I embraced the 'I can, and I will' mindset. From a nursery failure to an average student, and finally a college topper, the path was filled with learning, persistence, struggles and most importantly failures. There were times when I wanted to give up, but recognizing my strengths, the expectations of my parents, and the privilege of education kept me going.

And an important turning point was joining Prime College, where I received invaluable support, guidance, and knowledge- both theoretical and practical. I never believed I could excel in math, but with practice, belief, and the teaching of Bijay Dangol Sir, I succeeded. Practicing in inter college competitions like Battle of the Brains taught me how much there is to learn and grow. My involvement in the Prime Entrepreneurial Management Club helped me discover my passion for public speaking, especially through emceeing at events like Graduation Ceremonies and Storytellers.

Wanshika Shrestha
BBA 8th Semester

This led me to opportunities as a video presenter and scriptwriter for various companies.

I am incredibly grateful for my time at Prime, as it has helped me understand who I am and what I want to become. Reflecting on my four years, I feel a deep sense of gratitude, confidence and surrealism. The laughter, excitement and nervousness during exams will remain cherished memories. The friendships and bonds with teachers and staff are accomplishments I will always hold dear.

Prime Orientation Program 2081
-A Warm Welcome to the Batch of 2081

Prime College welcomed the batch of 2081 with an engaging orientation program at **Tokha Urban Farm**. This event aimed to offer new students a fresh start, meaningful connections, and a preview of the exciting journey ahead.

The day began with a calming meditation session, setting a positive tone. This was followed by interactive ice-breaking activities to help students connect. A highlights of the day was the career path brainstorm activity, encouraged creative thinking about their futures.The "Stack the Cups" challenge fostered problem-solving teamwork, giving students a chance to showcase their creativity.

The air buzzed with curiosity, energy, and bright smiles throughout the day. This orientation was not just a welcome but an inspiration to embrace the new beginning with confidence. It marked the start of a journey filled with learning, memories, and dreams. To all the new students — welcome to the Prime family!

MESSAGE FROM CLUB PRESIDENTS

PRIME CULTURAL CLUB
Pratik Ratna Sikhrakar

"Prime Cultural Club celebrates creativity, inclusivity, and cultural harmony, guided by our code #WeBeforeI, which emphasizes the power of togetherness and putting the collective before the individual. Our core values of unity, inclusivity, excellence, creativity, and respect drive us to foster connections, honor diversity, and strive for the best in all we do. Together, we rise!

PRIME SPORTS CLUB
Anish Manandhar

"Prime Sports Club promotes sportsmanship and excellence both on and off the field. Guided by our core value, "Elevating Sports to Prime Level,' we unite individuals through sports. We focus on nurturing talent, inspiring leadership, and creating growth and opportunities for athletes. Our goal is to build a community where sports celebrate unity and perseverance.

PRIME SOCIAL INNOVATION CLUB
Bijita Pokhrel

"Prime Social Innovation Club (SIC) promotes change through volunteering and charitable initiatives. We focus on addressing societal challenges and helping members develop leadership, empathy, and responsibility. SIC organizes donation drivers and campaigns for causes like education, health, and disaster relief, inspiring social responsibility and innovation to creatively solve community problems.

MESSAGE FROM CLUB PRESIDENTS

PRIME IT CLUB
Sandesh Basnet

"Since its establishment in 2004 with the motto 'Bridging the Gap between Academia and Industry,' Prime IT Club has been dedicated to equipping students with the skills and opportunities needed to excel in the evolving IT field. We focus on fostering innovation, practical learning through workshops and hackathons, collaboration between students and industry professionals, and empowering members to confidently pursue their careers.

PRIME ENTREPRENEURIAL MANAGEMENT CLUB
Kismat Roka

"Prime Entrepreneurial Management Club (EMC) is a club fostering creativity and empowering individuals to turn ideas into impactful realities. Guided by philosophy "It's We Building Us" EMC promotes teamwork, passion for learning, creating opportunities for growth and meaningful connections—all while having fun and creating lasting memories. Together, we challenge boundaries, embrace innovation, and build a brighter future.

PRIME FLAIR CLUB
Subham Shrestha

"Prime Flair Club is a club with the sole goal to help students to cultivate, hone and explore their talents by giving them a suitable environment to practice their craft. Simply put, we give students a platform for their potential. Prime Flair Club conducts and organizes talent programs, unplugged sessions, shows and events to help talents reach their highest potential.

PRIME ESPORTS HUB
Niraaj Maharjan

"At Prime Esports Hub, we combine gaming, learning, and fun under one roof. Our club is dedicated to creating a space for gamers to come together, compete, and grow. Our goals are simple: to foster teamwork, sharpen gaming skills, and build a strong esports culture through tournaments, workshops, and exciting events.

Introducing Prime College's New Hubs: Empowering Growth and Creativity

EMC BUSINESS HUB

As one of the youngest hub in Prime College's, EMC Business Hub is redefining how students engage with opportunities. As CEO, I've witnessed incredible growth within our first month—hosting events, delivering professional digital marketing services, and fostering unique opportunities for members. Our vision extends beyond projects and events. EMC Business Hub strives to be a space where careers are built, leadership is cultivated, and to create a legacy that inspires future generations of students at Prime College.

Hasilla Lama

PRIME CREATIVE HUB

Prime Creative Hub, a wing of Prime IT Club, focuses on skill development through guidance from experienced professionals and hands-on experience with live projects. Our mission is to prepare students for real-world challenges by bridging the gap between theoretical knowledge and practical application.

Sandesh Basnet

> ## "All our dreams can come true, if we have the courage to pursue them."

HOW TO START IN IT FIELD

The **"How to Start in IT Field"** event, organized by the Prime IT Club on November 24, 2024, provided first-semester students at Prime College with insights into various IT careers. The panel, made up of esteemed alumni, included experts in Artificial intelligence, Front-End Development; Back-End Development, UI/UX Design, QA Engineering, and App Development. Speaker shared their journeys, recommended resources, and highlighted the importance of hands-on projects, internships, and networking. Students were encouraged to explore their interests early, build portfolios, earn certifications, and take proactive steps for career development. The event successfully motivated students to start their IT Journey.

Our Journey with Kuruwa Care: A Story of Innovation and Impact

Our ICT Award 2024 Experience

Being a semifinalist in the ICT Award 2024 was a transformative experience. This prestigious platform celebrates innovative technology projects in Nepal, and Competing with some of the country's brightest minds was both humbling and inspiring.

Presenting kuruwa care allowed us to highlight the role of technology in bridging gaps in caregiving within a rapidly changing society. The selection process, mentorship, and networking opportunities provided valuable insights to refine our vision.

We were motivated by feedback from experts and judges, who recognized the potential of our project to address a pressing societal need. Being named a semifinalist strengthened our belief in the kuruwa care's impact and encouraged us to move forward.

About Kuruwa Care

Kuruwa Care is a solution to Nepal's growing healthcare challenges. The app connects families with trained, non-medical caregivers for support hospitals and homes. "Kuruwa", meaning caretaker in Nepali, reflects the app's mission to ease the burden on families balancing caregiving with other responsibilities.

Our goal is to provide a reliable, user-friendly platform that empowers both care givers and care seekers. We're excited to see how kuruwa care can revolutionize caregiving in Nepal.

Shubarna Adhikari BSc.CSIT 6th Semester
Prativa Ghimire BSc.CSIT 6th Semester

Faculty Spotlight :

Er. ROLISHA STHAPIT
Vice Principal of Computer Science and Applied Technolgy Division

1. How do you introduce yourself as one of the faculty members of Prime College ?
I am Rolisha Sthapit, an IT faculty member and Vice Principal of Computer Science and Applied Technology Division at Prime College. For the past 10 years, I have embraced teaching not just as a profession but as a calling that fuels my passion for guiding and inspiring students. With a solid academic foundation in Computer Science, I am deeply committed to nurturing curiosity and fostering growth in young minds. My greatest joy comes from creating an engaging learning environment where theoretical knowledge connects seamlessly with practical applications. Seeing my students evolve into confident, capable professionals who are ready to shape the future of the tech industry is what truly drives me.

2. What inspired you to pursue a career in education, and how has your journey led you to this role at Prime College??
From a young age, I discovered the joy of teaching during group study sessions with friends. Explaining complex concepts, breaking down challenging topics, and watching the spark of understanding in others fueled a sense of purpose in me. My passion for education was further ignited by an extraordinary female teacher who showed me that teaching is not merely a profession but a powerful way to inspire and transform lives.
My professional journey began as a part-time lecturer. This role gave me hands-on experience in nurturing students' potential while sharpening essential skills. As I took on greater responsibilities, including mentoring students and managing administrative roles, I discovered the delicate balance required to lead, guide, and organize within an academic framework. My journey at PRIME COLLEGE represents the culmination of these experiences. Empowering students and faculty to explore their full potential is not just my goal; it is my greatest joy.

3. What has been the most significant learning experience in your career so far?
The most significant learning experience in my career has been the transition from being a part-time faculty to taking on leadership roles in academia. Starting at the ground level, I had the chance to observe and understand the practical challenges faced by students and faculty alike.

One key lesson came from working closely with students on their projects and practical assignments. Seeing students grow and achieve their goals through guidance and encouragement has been incredibly rewarding. Another pivotal learning experience has been balancing academic responsibilities with administrative tasks as Vice Principal. It has taught me to prioritize, delegate, and lead with empathy while ensuring that the institution runs smoothly.

4. As the Vice principal of the Computer Science and Applied Technology Division, what is your vision for the college?

As the Vice Principal of Computer Science and Applied Technology Division at Prime College, my vision is to establish the Department of Computer Science and Applied Technology as a leader in IT education. I aim to bridge academia and industry by fostering a curriculum that emphasizes hands-on learning, innovation, and real-world problem-solving. Through strategic partnerships with the IT sector, we will provide students with internships, research opportunities, and exposure to cutting-edge technologies, ensuring they are prepared for dynamic careers.

I am committed to cultivating an inclusive, collaborative environment where faculty and students thrive, driving innovation and mutual growth. My ultimate goal is to produce graduates who excel professionally and contribute ethically to society, making Prime College a benchmark for academic and industry excellence.

5. Is there anyone who you consider truly inspiring? If yes, who is it?

One of the most inspiring figures in my life has been a remarkable female teacher from my early academic years. She was more than just an exceptional educator; she was a compassionate mentor who recognized my potential and inspired me to aim for excellence. Her unwavering support, dedication, and ability to instill confidence and resilience in her students left an indelible mark on me.

I am equally grateful for the mentors who have guided me throughout my journey. Their belief in my abilities, coupled with their trust and encouragement, has been instrumental in shaping both my career and personal growth. Their support gave me the strength to persevere through challenges and stay focused on my goals.

6. What is one piece of advice that you would like to give to your students?

My advice to students is simple yet profound: never stop learning and always stay curious. In the ever-evolving world of technology, a mindset of continuous growth is your greatest asset. Embrace new ideas, take on challenges, and don't shy away from stepping outside your comfort zone. Remember, failure isn't a setback—it's a stepping stone to growth and improvement.

Push yourself to develop not just academically but also personally, remaining open to new experiences that broaden your horizons. Your journey is uniquely yours, and the more you learn, adapt, and persevere, the more doors you'll open to exciting opportunities and a brighter future. Stay curious, stay resilient, and keep moving forward.

> *"IT'S THE TEACHER THAT MAKE THE DIFFERENCE, NOT THE CLASSROOM."*
> -Michael Morpurgo

21st Prime Sports Gala 2081: A Celebration of Talent, Teamwork, and Triumph

Mangsir 24-28, 2081

The 21st Prime Sports Gala 2081, organized by the **Prime Sports Club** and **Prime Esports Hub**, wrapped up a week of excitement and athletic excellence. More than just a sports event, it was a platform for students to connect, collaborate, and celebrate competition.

This year's gala featured a variety of games:
• **Outdoor Sports:** Volleyball, Futsal, Marathon, Tug of War, Basketball
• **Indoor Games:** Chess, Badminton, Table Tennis
• **Esports and Fun Games:** FIFA, PUBG, Mobile Legends, Bingo, Pot Breaker

Winners

• **Best Player Volleyball Boys:** Bikesh Maharjan (**BSc CSIT 2077**)
• **Best Player Volleyball Girls:** Sneha Ojha (**BCA 2079**)
• **Best Player Basketball Girls:** Samjana Lama (**BSc CSIT 2077**)
• **Best Player Basketball Boys:** Kshitiz Bista (**Prime +2**)
• **Best Player Futsal Boys:** Shrijan Nepali (**BIM 2077**)
• **Best Player Futsal Girls:** Sumina Khatri (**BIM 2078**)

Best Batch Award 2081

The **BSc. CSIT 2077** batch won 2 gold medals and 5 silver medals, showcasing their athletic prowess.

The Prime Sports Gala remains a cherished tradition at Prime College, bringing students together through sports and competition.
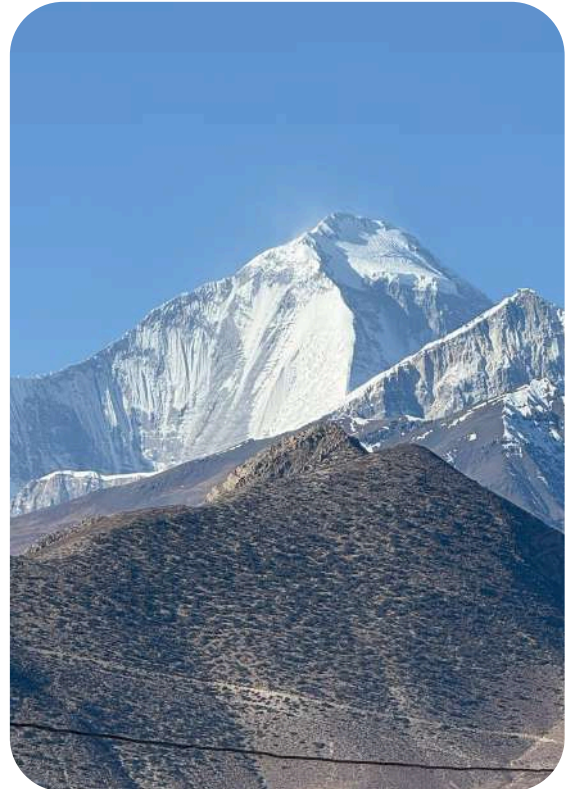

UPPER MUSTANG:
Where Adventure Meets Unforgettable Moments

Experiencing the stunning landscapes of Upper Mustang where natural beauty meets fun and memories. From majestic mountains to unforgettable group moments, this tour was a perfect blend of adventure and friendship.

BBA 2078 and BBS 2078 batch

ALUMNI SPOTLIGHT

Jenish Maharjan
BCA Alumni

1. TO START, HOW WOULD YOU LIKE TO INTRODUCE YOURSELF?

I am an energetic and extroverted enthusiast with a passion for cycling and chess. Currently, I am contributing as a Junior Flutter Developer and Project Manager at Galli Express Pvt. Ltd.

A proud alumnus of Prime College, I have completed my BCA and am eagerly awaiting the results. Beyond my professional and academic journey, I have a strong commitment to community service, volunteering with organizations like KMC Ward 17, the Nepal Red Cross Society, and the Nepal Cycle Society.

Previously, I worked as a Computer Teacher at Kathmandu Model School, fostering a love for technology among young minds. My dynamic blend of technical expertise, leadership experience, and dedication to social causes defines me as a driven individual always ready to embrace new challenges and opportunities.

2. WHAT INSPIRED YOU TO PURSUE A CAREER IN TECHNOLOGY, AND HOW HAS YOUR JOURNEY UNFOLDED SO FAR?

My journey into the world of technology began during my +2 studies, where I was introduced to HTML for the first time. This initial exposure sparked a fascination with the endless possibilities' technology could offer, igniting a curiosity to delve deeper into the field. Eager to learn more, I began exploring programming and software development, which opened an entirely new world of creativity and innovation for me.

After completing my 12th grade, I took my first major step into the field by joining an Android app development class. This hands-on experience further solidified my passion for creating functional and engaging software solutions. I was captivated by the process of turning ideas into applications that could solve real-world problems and improve user experiences.

This curiosity and drive eventually led me to Prime College, where I deepened my technical expertise and actively engaged in leadership roles through the Prime IT Club. Today, as a **Junior Flutter Developer at Galli Express Pvt. Ltd.,** I am continually building on this foundation, combining my technical skills with practical experience to contribute to impactful projects and push the boundaries of mobile app development.

3. HOW DID YOUR TIME AT PRIME COLLEGE SHAPE YOUR PROFESSIONAL JOURNEY?

My time at Prime College was pivotal in shaping my professional journey. It provided me with a strong foundation in both academic and extracurricular activities, fostering a well-rounded skill set that I carry into my career today.

One of the most significant experiences was my involvement with the Prime IT Club, where I started as a general member and later served as the Event Management Director for two tenures. This role allowed me to organize and manage various events, honing my leadership, organizational, and teamwork skills. It also gave me a platform to collaborate with peers, explore innovative ideas, and gain practical insights into project management, which continues to guide me in my current professional roles.

Additionally, the supportive environment at Prime College encouraged me to explore my interests in technology, instilling the confidence and technical proficiency needed to thrive in the ever-evolving field of mobile app development. The combination of academic rigor and real-world experience prepared me to tackle challenges with resilience and adaptability, setting the stage for my current role as a Junior Flutter Developer and my aspirations to grow as a versatile developer and project manager.

4. YOU WERE AN EXECUTIVE MEMBER OF PRIME IT CLUB. HOW DID YOUR INVOLVEMENT IN PRIME IT CLUB INFLUENCE YOUR COLLEGE LIFE?

One of my most memorable experiences at Prime College was winning the **Best Club of the Year** title for both **2022–2023** and **2023–2024** with the **Prime IT Club**. These back-to-back wins were a testament to the collective effort, commitment, and collaboration of every member. From organizing technical workshops to coordinating with other departments for major events, every decision was made with the goal of enhancing the club and the student community. The recognition for two consecutive years validated the hard work, late nights, and challenges we overcame together, and these achievements will always hold a special place in my heart.

Teaching students who had just completed their **Secondary Education Examination (SEE)** was a truly rewarding and eye-opening experience. It allowed me to share my knowledge while honing my skills as a mentor by breaking down complex concepts into simple, digestible lessons. Engaging with younger students at this pivotal stage in their academic journey was fulfilling, as I had the opportunity to positively influence their learning path and help them transition to higher education. Watching their curiosity grow and seeing them develop an interest in the subject was incredibly satisfying.

5. WHAT IS YOUR FAVOURITE MEMORY AT PRIME COLLEGE?

Some of my most memorable moments with the Prime IT Club came from the camaraderie and teamwork during planning sessions and the occasional chaos when things didn't go as planned. One standout experience was during ICT Meetup V7.0, where a last-minute speaker cancellation threw us into crisis mode. Managing the audience while coordinating parallel sessions was overwhelming, but with the team's support, we adapted quickly, rearranged the schedule, and ensured the event ran smoothly. These challenges taught me invaluable lessons in leadership under pressure, teamwork, and problem-solving.

The year 2023/2024 was particularly special for fostering strong bonds within the club. Beyond the events, these shared experiences forged lifelong friendships, making college life more enjoyable. The relationships I built in the Prime IT Club remain some of the most meaningful connections I've made, extending far beyond our time at Prime College.

6. WHAT ARE SOME GOALS OR PROJECTS YOU'RE LOOKING FORWARD TO IN THE COMING YEARS?

I am currently a Junior Flutter Developer at Galli Express Pvt. Ltd., where I focus on developing and managing mobile applications that deliver seamless and engaging user experiences. This role has significantly enhanced my expertise in mobile app development, providing invaluable hands-on experience in creating innovative and impactful solutions.

Looking ahead, I aspire to grow both technically and managerially. On the technical front, I aim to master advanced Flutter features, such as performance optimization, third-party service integration, and cross-platform development, while broadening my knowledge of other mobile platforms. Simultaneously, I am passionate about developing my project management skills, taking on leadership roles, and driving projects to successful completion with efficiency and quality. By evolving in these areas, I hope to contribute to groundbreaking projects and eventually lead teams that deliver meaningful solutions in the dynamic field of mobile technology.

> " Life Is Like Riding A Bicycle. To Keep Your Balance, You Must Keep Moving.
>
> **Albert Einstein**

7. AS YOU LOOK BACK ON YOUR JOURNEY SO FAR AND AHEAD TO WHAT'S NEXT, IS THERE A MESSAGE OR PIECE OF ADVICE YOU'D LIKE TO LEAVE FOR THE STUDENTS AT PRIME COLLEGE?

For future students, I strongly recommend joining any one of the student clubs. Being part of a club not only enhanced my college experience but also fostered holistic personal and professional growth. The practical skills you gain through organizing events, working in teams, and solving real-world problems are invaluable. Clubs offer a platform to develop leadership, communication, and problem-solving abilities—skills that are essential for your future career but are often not fully developed in the classroom alone.

On a more personal level, student clubs are a great way to build lasting friendships and create a strong support network. You'll meet peers who share similar interests, and through collaboration and shared experiences, you'll form bonds that go beyond academics. Whether it's through event planning, after-event gatherings, or simply hanging out between meetings, these connections will enrich your college life. Joining a club allows you to make the most of your time at college, leaving you with cherished memories and a sense of accomplishment that extends beyond graduation.

Ink and Imagination Vol-2

On December 27, 2024, **Prime Flair Club** hosted a creative event **Ink and Imagination Vol 2**, sponsored by Tea Ola which was designed to showcase the talents of young writers & artists. Along with reciting poems, the art of many artists was also exhibited. The guest Nawaraj Neupane, a famous poet and a book writer was also invited to the event. He shared his inspiring story that inspired most of the audience. Although every participant recited their creative poems beautifully, there was also an award for the best poem and reciting given to Sangita Adhikari for her heart-touching poetry.

The success of Ink and Imagination Vol 2 was undeniable. The event left participants feeling inspired & motivated to continue exploring their journeys. The Prime Flair Club once again demonstrated its commitment to fostering creativity and providing a platform for students to express their unique talents. Ink and Imagination Vol 2 was not just an event, it was a celebration of the power of art and storytelling to bridge divides, challenge perspectives and ignite passion. In the same way, the Prime Flair Club continues to encourage students to dream, create, and imagine.

गजल

मेरो मुटुमा तीखो भालाको प्रहार आयो
जब उनी अर्कैकी भईन भन्ने समाचार आयो

यो दुखीलाई यहाँसम्म साथ दिएउ बहुत धन्यवाद
अब तिमी यहीँ रोकिनु पर्छ तिम्रो दरबार आयो

विदेशबाट आमालाई फोन सम्म नआउने छोरोको
सहरमा कसरी श्रीमतीलाई पैसा र उपहार आयो?

बा? गाउँका सबैको निधारमा चामल भएर पनि
हाम्रो घरमा किन खाने चामलको आहाकार आयो?

Bishal Tiruwa,
BBA 8th semester

Exploring Connections: A Reflective Journey to Jamacho

As the Coordinator of the MLRC at Prime College, I had the privilege of organizing a recent hike to Jamacho. Our goal was simple: to provide our students with an opportunity to connect with nature, build stronger bonds, and step away from the academic grind.

On a crisp morning, our group set out on this journey. The hike itself was more than just a physical exercise. As we climbed, students engaged in lively conversations, sharing stories, and offering encouragement to each other. These interactions, born from shared effort and the beauty of the surroundings, fostered a deeper sense of connection within our group.

Reaching the summit was a reward in itself. The panoramic views were breathtaking, offering a sense of awe and gratitude. In that moment, amidst the stunning scenery, we realized that hiking is not merely about reaching a destination; it's about the journey itself. It's about the conversations, the laughter, and the shared sense of accomplishment that emerges along the way.

This hike served as a valuable reminder of the importance of stepping away from our screens and classrooms to reconnect with nature and ourselves. It was a chance to cultivate personal growth and build meaningful relationships within our community.

Niraj Thapa Magar, MLRC Coordinator

Delivering Growth and Innovations

THE PASSAGE OF TIME

I miss the time when I was just a kid,
When the world was a mystery,
When I was ignorant of the future.
When I couldn't even spell my name,
But saved the world in my imagination.

I miss the time when I was a kid,
Climbing trees and getting bruises,
As if I'd won a duel with knights,
Laughing without a care.

Now, those times seem endless,
Yet feel like yesterday.
All that's left are memories,
Like faded photographs in a dusty album.

Smile Ahmad

BIM 3rd Semester

You Dream or Work for Success

Here, we have a conversation between Dream and Work where they give their viewpoints on achieving success.

Dream: Hello Work, you seem always busy. Don't you want to take a rest and enjoy life?

Work: Yes Dream, I want to enjoy my life but for that, I need to work as people can't succeed without me.

Dream: That's true, but without me people can't be successful as I provide them direction and vision. I'm the reason people climb mountains, and become entrepreneurs, doctors etc.

Work: True, you provide vision and inspiration, but mountains can't be climbed by wishing only. You need to go through many ups and downs. I turn the expectations into reality.

Dream: But Work, I also motivate them, provide them passion, inspire them, and give them hope. Without me, there is no meaning of hard work.

Work: Yes, but Hard work makes people's dreams into reality, nowadays many youngsters, students, politicians, and other people dream high and want to achieve big but don't want to do hard work. People can't just sit and dream. They need to do something to achieve that dream.

Dream: So, are you saying I'm useless and they should do work only?

Work: No, Dream. Dreaming is part of the equation. You set the goals of life. You show people where they want to go. People just need to work hard plus smart to make those dreams real.

Dream: I see what you mean. You give people the tools and I give them vision. So, we make a great team, don't we?

Work: Exactly, Success means working together you dream big, and I work for it.

Dream: Yes, together we make success happen. Dream first, then work hard plus smart to make it.

Work: I like that, we're better together.

Rachana Maharjan
BBA 5th Semester

पर्वाइ ।

नजिर त स्थिरले बनाउँछ, तिमी अस्थिर रहेछौ ।
जिन्दगी त मेहनतले बनाउँछ, तिमी अल्छी रहेछौ ।
खुसी मनाउनु तिमी, मुटुमा मेरो बालाको बीउ रोपेर,
यादगार बनाउनु तिमी आफ्नो समय, मलाई बिर्सेर ।
जान्छौ भने, जाऊ तिमी, यो बेकामेलाई कुर्नु पर्दैन ।
भने होलान् कति घरकाले, कति अर्कोले त्यो
नामर्दलाई छोड्न सक्दैन ।
बस्छु म यादमै रहेर पनि,
तिमी आफ्नो तयारी गर, मेरो चिन्ता लिनु पर्दैन ।
जान्छौ भने, जाऊ तिमी, यो बेकामेलाई कुर्नु पर्दैन ।
मृत्यु पनि नजिक आएजस्तो लाग्छ अचेल, उसले साथ
छोडेपछि ।
आफ्ना पनि पराई लाग्न थालेका छन् अचेल, उसले
साथ छोडेपछि ।
उसलाई छोड्दैमा केही फरक नपर्ला तिमीलाई,
बेर लाग्दैन ऊ तिम्रो यादमा पागल बन्नलाई ।
यात्रा त्यति नै हो जीवनको, जति तिमी तय गर्न
सक्छौ,
उपलब्धि त्यति नै पाउँछौ, जति तिमी कोसिस गर्छौ ।

Yes, We Grew Up

In a hustle of time
And chaos in mind,
I ponder we grew up,
In the mist, where we used to get scared of
zeros,
Now we crave for an extra zero in our bank
account.
Questing for story books with lots of
pictures,
Got ceded with searching for newspapers
with job vacancies.
Struggling to balance the mathematical
equations,
Got replaced by balancing our salary,
Where family needs are prioritized, and our
desires are petty.
The desire to go home early during recess,
Got suspended with working an extra hour.
As a combat between dreams and
responsibility started,
Dreams ceased and responsibility won.
So, yes, I ponder we grew up!

THANK YOU

As we wrap up the sixth edition of Vrittanta:, we want to extend our heartfelt thanks to everyone who made this newsletter a success. Your honesty and the stories you've shared have been inspiring, emotional, and sometimes challenging, but always real. We're truly honored that you've trusted us with your truths, even when they weren't easy to tell. Your ongoing encouragement has made it possible to create content that resonates.

A special thanks to our readers—your support is the heartbeat of this publication. We also deeply appreciate the guidance of our **Ethics and Standard Officer (ESO), MPRE, MLRC, and the Academic Department of Prime College.**

A huge shoutout to our incredible editorial team, whose dedication and passion have brought this edition to life. Special mention to **Aavash Maharjan, Anil Dangol, Bishal Devkota, Dixika Shrestha, Luniva Gorkhali, Manjil Aryal, Prabisha Maharjan, Ritika Maharjan, Sachi Manandhar, Saleena Shrestha, Sumisha Maharjan and Shruti Shrestha** for their dedication and effort in bringing "Vrittanta:" to life.

As we look ahead, we're excited about what's to come. The next edition of Vrittanta: promises even more compelling stories, fresh perspectives, and creative contributions. We invite you to be a part of this journey—whether by sharing your own stories, submitting artwork, or simply offering your feedback. Together, we can continue building a space where every voice, every perspective, and every creative expression is celebrated.

The possibilities are endless, and we can't wait to see what the future holds for Vrittanta:.

Thank you for being a part of Vrittanta:.
